

**Rowner Junior School**  
**September 2017**  
**FGB: 14.9.17**  
**Excellence in Learning**

Rowner Junior School is learning centred, meaning that each element of whole school and classroom practice is designed with an understanding of how children learn best and achieve. Continued and sustained improvement is dependent upon maintaining the high quality of learning that is taking place on a daily basis. Across our school the expectation is that all pupils are provided with high quality learning experiences which lead to consistently high levels of pupil achievement, in line or above national expectations. This policy should be read and used in conjunction with our excellence in behaviour and excellence in assessment policy..

**We expect our pupils to experience consistently good or better teaching – no child deserves less!**

By adopting a whole school approach to teaching and learning across our school, we aim:

- to enable children to learn as effectively as possible.
- to give children the skills they require to become effective and independent lifelong learners.
- to encourage creativity amongst pupils and staff.
- to provide consistency of teaching and learning across our school.
- to provide an inclusive education for all children.
- to learn from each other, through the adoption of a collaborative, enquiry based approach to teaching and learning, where good practice is shared.

There is no single recipe for learning in our school, however this policy outlines some of the **key elements** which are fundamental to ensuring excellent standards in teaching and learning

All staff facilitate pupils to achieve our school expectations:

- be brave
- be resilient
- be aspirational
- be independent
- be positive
- be kind

*Growing learners, growing leaders, growing citizens.*

## Key elements and principles of teaching and learning across our school – a practical guide

### **We Learn:**

**10% of what we READ**

**20% of what we HEAR**

**30% of what we SEE**

**50% of what we SEE and HEAR**

**70% of what is DISCUSSED with OTHERS**

**80% of what is EXPERIENCED PERSONALLY**

**95% of what we TEACH TO SOMEONE ELSE**

William Glasser

### **All lessons have...*Clear Learning Intentions***

- Learning intentions are shared orally and displayed
- All learning intentions are in child friendly, age appropriate language
- Learning intentions are separate from the context of the lesson
- The learning intention is written or stuck at the top of every piece of work

### **For learning intentions to be shared effectively, teachers must:**

- Make learning intentions specific and skills based
- Share them and ensure they are in books
- Refer to them frequently during the lesson
- Ensure pupils know exactly what they are going to learn and what is expected of them by the end of the lesson/unit of learning

### **All lessons have... *Well planned success criteria***

- Can be generated by pupils during the lesson and are displayed for the children to work towards during the lesson
- Are used by pupils to self-assess their own or other children's work
- Referred to in lessons and used as point of reference when illustrating/evaluating learning under a visualiser

### **All lessons are ...*structured to enable all pupils to access learning***

- All learners are challenged and supported appropriately
- Planning includes access strategies and opportunities for pupils to deepen their learning
- Tasks not success criteria are different to meet the needs of all pupils and enable them to achieve the learning intention.

**All pupils are...*Actively engaged in learning and work co-operatively***

- Pupils are actively engaged during all parts of the lesson
- Opportunities to *Think/Pair/Share* and discussions with a *Response Partner* are regular features in all lessons.
- Pupils are chosen at random to respond to questions/tasks through use of lollypop sticks
- Mini whiteboards are used for short bursts of activity, to develop understanding and to ensure children are active and engaged during the lesson.
- Visuals resources, artefacts, auditory input are all used creatively as a way to enhance learning.
- Children help and encourage each other
- Everyone participates
- Children explain their ideas clearly and in full sentences.

**Learning is enhanced through... *Effective use of questioning***

It is adults who help pupils make sense of information. The frequency and nature of interactions between teacher and pupils is highly significant. We develop understanding by

- Using open ended and higher order questions based upon Bloom's Taxonomy
- Using random response systems (lollypop sticks, harmony hat)
- Providing wait time- (3-5 seconds), pupils need time to think through their answers before replying
- Providing thinking time by giving an advance warning, such as '*In two minutes I am going to ask you....*'
- Allowing pupils to explore and articulate their thinking by giving them time to discuss their responses in pairs or groups. Pupils then respond with '*We think that...*'
- Ensuring pupils fully understand the question
- Pupils are encouraged to question each other and themselves

**All pupils receive *regular and clear ...feedback which enhances learning (see assessment policy for further detail)***

- Formative assessment is embedded in everyday practice and is used to inform teaching and learning
- Verbal feedback is used extensively to scaffold and deepen learning
- All pupils are clear about how they need to improve
- Individual/group targets are set termly/as appropriate for reading, maths and writing – these are displayed in the front of their books and the children refer to them during lessons
- When marking children's work, the main focus is on meeting the learning intention, success criteria and/or targets. Evidence is highlighted, or commented on
- Marking identifies next step prompts
- Pupils are given regular time to address issues raised in marking

**Learning is enhanced through the use of... *Effective behaviour management***

- Positive reinforcement is used to foster a positive learning environment in the classroom.
- Low level behaviour is addressed to maintain high levels of engagement

- All classes have agreed expectations and use the school behaviour fairly and consistently

### **Learning is enhanced through the ...*Effective use of additional adults***

- Additional adults are clearly directed to support learning
- Teaching assistants are fully engaged with pupils on the carpet and tables during lesson times
- They are clear about *who* they are supporting and *why*
- Planning is shared in advance with teaching assistants
- They sit next to the pupil/pupils they are working with, quietly engaging the pupils, explaining the task or using other resources, e.g. number line to facilitate learning
- They are involved in assessing pupil's understanding and feeding back to the teachers
- Teaching assistants annotate learning to indicate support

### **Learning is enhanced through... the effective use of a plenary and mini plenaries**

*Review* what has been learned

*Reflect* on how it has been learned.

Reviewing learning is a key to memory and not confined to the end of the lesson. Teachers review throughout the entire lesson and constantly refer pupils back to the success criteria of the lesson, reinforcing prior learning.

### **Learning is enhanced through...*A stimulating and purposeful classroom environment***

Across our school we aim to ensure that all classrooms, group learning areas and whole school areas are spaces that everyone can use to learn and be proud of.

All classes across the school should have:

#### 1. Working walls

Every class should have a working wall for English, mathematics and the enquiry being undertaken. These should reflect the work currently being studied in each of the subjects. Pupils should know the learning outcome and the sequence of learning to achieve the outcome.

#### 2. Well labelled and neatly organised resources

- Classroom resources should be well organised and clearly labelled
- Pupils should know where to find the resources they need for an activity, this will help to foster independent learning skills.

### **Learning is enhanced through...*home learning tasks and opportunities***

1. Pre-learning is a consistent element of home learning:
  - Text extracts that pupils are going to use in English lessons are sent home so that pupils are familiar with them.
  - Key facts (X tables, spellings, number bonds etc) are sent to be learned as appropriate
2. Over learning and further opportunities to practise skills learned in class are sent home as appropriate.
3. Reading a sharing a book is expected at least three times a week.

*Growing learners, growing leaders, growing citizens.*

4. Pupils are invited to homework club if they require adult support as well as provided with time to share their books with an adult in school.

### **Monitoring and evaluation**

The implementation of this policy is monitored by the leadership team and governing body through regular learning walks, pupil conferencing, lesson observations and termly data reports.

### **Roles and Responsibilities**

The head teacher has responsibility for the leadership and monitoring of teaching and learning. The deputy head teacher has responsibility for developing and updating teachers about teaching and learning practice and ensuring, with the head teacher, that the quality of teaching and learning is consistently monitored. The SEND leader is responsible for the development of teaching and learning practice with SEN groups and individuals. Class teachers ensure that they follow this policy in their classrooms. They regularly review their practice and if necessary seek support from the leadership team. The governing body monitor the quality of teaching and learning through whole governing body meetings, visits to the school and the head teacher's report to the governors.
